### CONCENTRATED LYE.

A MONUMENTAL many in the history of this article is one by a Druggist in Montreal, for which he has been awarded the name of "Concentrated Lye" and by the way, perhaps he can enlighten us as to what it is. Well the individual whose idea of Mouton and Teton are some what heavy has got the bump of invention so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This initiator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange coincidence of Providence, he has got the monopoly, is selling of his Extract on the public in places of the genuine. Purchaser will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

## Value of Sunflower.

A gentleman puts in a plea for the sunflower, expressing the opinion that it was it, and therefore costly, it would be a great treasure, instead of being regarded as a homely and plebeian. Of course he alluded to the *Lilithiana* Anna, which is larger and more generally known than the other varieties as it is at the most valuable. The plant grows with great rapidity, leaves soon become large enough to serve as a covering for young cabbage and tomato plants, they have a rather green or dried, make hating for which cattle and horses exhibit peculiar fondness. In earlier times they were used to some extent as substitutes for tobacco, and were regarded as possessed of medicinal virtues, especially efficient in cases of asthma. The golden blossoms afford excellent pastures for bees, the first honey being full of oil and of the material. The seeds, besides yielding oil of superior quality, make first-class feed for fowls. The stalks serve well as bono poles, and may be planted near the hill soon after the beans are up, and they have been used in hop yards with satisfactory results for similar purposes. If an autumn and kept in the stalks are also valuable as a substitute for kindling wood. Certain tests have established the fact that the sunflower is an absorbent of marasmus, therefore, peculiarly worthy the attention of all persons so unfortunate as to be living within twenty miles of New York, or in low places further away. All is all, the "poor man's poney," as the sunflower is sometimes called, deserves high praise, and standing up as it does, keeping its broad, round, domestic, face towards the bright sky, it is a sight which warms the heart, and is a source of comfort to the weary traveler.

## THE PROLOGUE.

## GOVERNOR-GENERAL'S SPEECH.

## OTTAWA, April 14.

This day at three o'clock p.m., His Excellency the Governor-General presented in state to the Chamber of the Senate, in the Parliament Building, and took his seat upon the Throne. The members of the Senate, being assembled, the Honorable the Governor-General, in a most impressive manner, read the following speech, which was received with the greatest attention and interest on the part of the members of the Senate.

## SPEECH FROM THE THRONE.

## Honorable Members of the Senate:

In referring you from further attendance in Parliament, I beg leave to express my warm acknowledgments for the diligence with which you have applied yourselves to the discharge of your public duties. The session has been brief, but work of importance has been accomplished, and I may congratulate you on the prospect which is forecasted that in the future, the sessions of the Parliament of the Dominion will not make the inconvenient demands on the time of the members, which it has done in the past.

The arrival in Ottawa of the representatives to serve for the Province of Manitoba and their taking their seats in the Senate, mark the completion of the Dominion as a united nation. The completion of the Dominion will not make the inconvenient demands on the time of the members, which it has done in the past.

The session which we are now closing has witnessed the consummation of the union of Manitoba, and adoption of the necessary legislative measures to facilitate and ensure the consummation of British Columbia into the Dominion. The address passed by the Senate and House of Commons, I will submit to the Senate for their consideration, and I trust that the Senate will be able to complete the work which it has undertaken, and to the satisfaction of the Dominion.

## Midnight Despatches.

LONDON, April 18.—Despatches from Versailles say that the Germans took 400 prisoners yesterday, and declare that no important military events have taken place. They say the Germans in the Forts wait the armistice by firing at night with no purpose. On Saturday night, although they kept up a constant cannonade not one Versailles was hurt.

New York, April 18.—Special despatch to the World from Paris, dated today says:

Desperate fighting resulted in victories for the Communists in the morning. Five consecutive attacks made upon Versailles were repulsed with great slaughter. The loss of the government troops was fearful. At Neuilly the combat is fierce, but the Communists gain ground steadily. Their hopes are now raised to the highest pitch.

A despatch to the Tribune, dated at Paris on Saturday night says:

They and Montmorency opened a heavy fire last night on Châtillon, where the Versailles troops were supposed to be massed. Only a few shells were fired in reply. The loss of the National Guard was trifling. A powerful armistice has been begun in the Place Vendôme.

A twelve pounder has been already mounted. The batteries in the Bois de Vincennes have been strengthened. The state of affairs of Paris remains unchanged.

The Corps of St. Louis has been arrested. A detachment of the Communists took as yesterday of objects of value in this, one of the most important districts in Paris.

Neuilly the National Guards were several times repulsed in their endeavor to take houses in the park. The soldiers have two mitrailleurs and are barricaded strongly. Most of the soldiers and gendarmes on the island of Grande Saule escaped.

A National Guard yesterday advanced from the Bois de Vincennes along the shore to Châtillon, intending to take the town at Châtillon, where the Versailles troops were in great numbers. They were in front of the town and were repulsed with loss of many prisoners. The regulars with the aid of the National Guard repulsed the attack.

Paris batteries and have sent shells into Paris and Châtillon. The Versailles have occupied St. Denis, near St. Denis in the Quartier de Trinité. A number of manufacturers have been arrested by order of the Communists, and their factories closed in order to force the workers to join the National Guard.

Provisions are becoming scarce. The price of fresh meat has been doubled and the price of bread is difficult to obtain now. A well-known American banker has offered to purchase the Communists in the Place Vendôme, and to transport it to the Central Park.

PARIS, Sunday evening.—General Cluseret in the official report to the Communists, says Fort Vanvres was attacked five times on Saturday.

Cannon and machine fire continued all day.

To-day an obstinate struggle is going on at Neuilly, where the ground is disputed inch by inch.

The German army has been concentrating for the last few days. A general offensive has been expected.

The Germans at Neuilly have been reinforced with 15,000 men, and are preparing to advance.

The Communists are resolved to continue the defense to the last.

The sale of arms and shells has commenced, and there are other signs of a scarcity of food.

New York, April 17.—A despatch to the Tribune, from Paris on Sunday says: The fighting was incessant during the past day.

The Government at Versailles says Paris is completely invested, and that a summons to surrender in 48 hours will be sent.

There is great excitement in the city and the Communists suddenly allow free circulation in street and at railway stations without pass.

Most of the city gates are open.

## Special Notices.

Groups gathered together pay little attention to the bombardment.

It is anticipated that all the railway lines will be cut to-morrow, and a state of siege declared. There are only a few shells fired at Paris to date, and only 4000 yards from Paris.

There are no important news. I saw fighting yesterday, and declare that no important military events have taken place.

There is a great cry at the number of arrests. No more will take place without a report to Communists.

The Very Latest.

DESPATCHES TO 4 P. M.

LONDON, April 17.—They issued a circular and the evening of the 16th as follows: The Paris insurgents are capturing their houses and selling their furniture.

The government continues to postpone the purpose of collecting an irresistible force, and also to allow the Parisians time to reflect.

The insurgents say we shot prisoners and killed the overthrow of the Republic and the subversion of the National Guard. These statements are false.

There was some cannonading today, but it was without result; otherwise military affairs are quiet, and nothing of interest occurred.

A correspondent of the Independence Bell says that the end approacher, the affair at Neuilly is disastrous to the Communists, whose lines are filled with their dead.

The Versailles forces are within one kilometer of the Bois de Vincennes.

Mr. B. Devlin, of Montreal, it is said, is en route to New York, where he is expected to be one of the Irish leaders and will probably lead in Congress.

A terrific hail storm passed over Jackson, Miss., on Friday night. Hail stones measuring six inches in circumference fell, broke and killed, trees were stripped of their foliage and many houses were destroyed.

Elections in Paris a Failure.

Versailles, April 17.—The Assembly has passed a decree ordering a municipal election in Paris on the 18th inst.

It is reported that a sharp engagement took place this morning near Asnières, and that the Government troops carried the Chateau Breton, commanding the village.

Paris, Monday evening, April 17.—Canoeing and rifle firing are going on at Neuilly and Paris. The rain, and the sound comes to be heard in the city.

Neuilly is still warmly contested.

A rumor is afloat that the representatives of the United States, England and Italy, are jointly urging the Communists to agree to a truce.

Some National Guards have invaded the hotel of the British Embassy, an immediate investigation has been ordered and arrests made.

Monsieur Garibaldi has been elected a member of the Commune.

The elections were a fiasco, but few persons voting.

The Commune has instituted a general court-martial.

New York, April 18.—A cable despatch last night from Paris, Monday noon, says: At nine o'clock last night the Communists the result of the vote of the troops. The vote contained the papers was carried by order, escorted by Nationalists.

The procession was headed by a red flag. There were cries of "Vive la Commune."

Yesterday, after the taking of Neuilly Church, a youth of 16 placed a flag on the tower of the church, amid a shower of bullets.

The inhabitants are collecting provisions.

A report that the city is to be invaded by the Versailles and French troops, causes great excitement.

The Church of Saint Jacques du Haut Pas, was surrounded today by the Nationalists and the clergy arrested.

During Yappers yesterday, the church of St. Vincent de Paul was surrounded by Nationalists and pillaged.

There is scarcely a church open now.

A despatch from Boulogne says the Communists in Paris were only a perfect fiasco, and a tenth of the voters were for the pole.

In the eighth arrondissement only 1,130 votes were polled out of 17,435 voters.

No despatch was received from Paris by the train. It is stated that the courier's despatch was seized by the Commune.

Despatches To 4 P. M.

London, April 18.—The Times has a despatch from Paris stating that it is reported that Paris will intervene in the affairs of France in case the Commune should be victorious over the Versailles Government.

The Prussians have advanced to Averbiers, four kilometers south-east of St. Denis, and within eight kilometers of Paris.

The Daily News' despatch from Paris says the Commune has in its hands cash to the amount of thirty-eight millions, which has been paid by the Bank of France for use of the city of Paris.

Great Britain.

Joint High Commission.

The Alabama Question.

Australian Colonies Fortifying their Ports.

London, April 17.—The Times of to-day has a leading editorial upon the report as to the result of the labors of the High Commission. It says the case of the Alabama has always excited a feeling of insecurity in England, and has disconcerted American politics. We had the possible settlement, and think that the arbitration will, again, England of responsibility for the death of the Alabama. The Times adds that the Alabama was partially fitted out at the Anson, and hence Portugal is liable to our experience. The Times is evidently not anxious of an immediate settlement of the case, for it was the British public that it is a very uncertain whether a treaty will be signed by the American Senate.

The demonstration in Hyde Park yesterday in favor of the Paris Government was a failure.

London, April 17.—A despatch from Melbourne, March 28th, says that all the Australian colonies are fortifying their ports. A consequence of a warning not to have come from the House Government, that descent upon them is threatened by American filibusters.

Mexico.

Death of Ex-President.

Election of the New President.

CITY OF MEXICO, April 11, via Havana

Mexico is dead. Fifty-two of the public journals advocate the re-election of President Juarez, forty favor Porfirio Diaz, and ten have pronounced for Tjador. General Huerta has been appointed Minister to Washington.

The regular session of the National Congress began on the 1st of the month. Señor Hernandez, president of the chamber, in his

## opening speech alluded to the fears expressed by many of direct intervention by some

officious agents of foreign power in the coming election for the president and to

threats heard everywhere of the refusal to accept the decision of the people at the polls. He deplored such expressions as foreboding evil to the country. Juarez is gaining ground in his campaign for the presidency. He proposed that the election of President in future be directed by the people. The several parties across one another of endeavoring to bring Mexico under the American flag. Romero, the Minister of Finance, Mills, Minister of War, Balcarcel, Minister of Interior, and Saverre, Minister of Justice, have been impeached, and will be tried by the Supreme Court. The condemnation of the ministers is considered certain.

## CONCENTRATED LYE.

AMONGST the many illustrations of this concentrated lye is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—well, perhaps he can enlighten us as to what Extract of Soap means. Well, this individual, whose ideas of Means and Ends are somewhat large, has got the lump of lye that he has borrowed the name of popular article which has been brought out for the last few years. This lye, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange assumption of Providence, he has got the management, is paining of his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the author's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

**RECORDS.**—The Daily City Press of Toronto has the following summary, to which, however, we do not attach much importance. **OLD MINING.**—The Madoc Mercury of the 22nd inst. says: "There has been during the past week a great deal of excitement, amounting to a mild degree of excitement, among the faithful few who cling to their belief in the extensive gold-producing capabilities of this district. These hopes are based on the rumor of a huge haul of gold, turned up in the course of some panning on the Richardson farm—a report we have not been able to verify—and on the active prospecting by his operations in the Madoc Mountains of the mining laws in Madoc. If all we hear as to the depth in the rock which gold is being found there is true, the prospect certainly seems to be improving."

TAKES THE LEAD  
IN INTRODUCING  
**NEW STYLES.**  
—  
To the Ladies of Belleville  
AND VICINITY:

I WISH to direct your attention to my new supply of BOOTS open today. The "Elastic" Boot, the most practical winged Boot yet introduced, and with this lot will be found quite a variety of "CHIQUE" and "SHOO-FLY" BOOTS (as often asked for lately), also, a large supply of this sole Prunella Congress (a superior quality) manufactured in Germany. We can recommend with the certainty of giving every satisfaction. Those 90 cent Congresses, which were so popular, are again at hand for this season—as well as every variety of Boots generally kept in stock. We can assure you that we recommend our goods, but those who have not yet given us a trial, we would promise no value should you favor us with your patronage.
